WRITE: Reading Response #1

1. Source scored 49, excellent.

3. This is a credible source because my topic is about NLP and how it will take over the job of writing/producing text. The biggest example is GPT-3, a relatively new AI that can produce text very impressively. The AI is written by the creators of GPT-3 and involves examples produced by GPT-3 itself. This makes it a very credible and informational source to use. Perfectly relevant to my project.

2. Works Cited
